

The STATus Report

Seabreeze STAT Asthma (CBP-201-206) Update

Volume 2 – Issue 8
August 2026 Topics:

- ❖ Study Reminders
- ❖ Data Cleaning

STUDY REMINDERS

- ❖ Treatment Failure Log Forms should be completed for all randomized participants.
- ❖ If IP cannot be returned to depot by site; please reach out to your CRA.
- ❖ Please be advised that Medrio.com (EDC) will be undergoing maintenance with their server down between 29Aug 10 pm PST to 30Aug 2am PST. Keep in mind for planned batch freeze/query resolution.

Follow-Up Of Adverse Events: **Protocol Section 11.8**

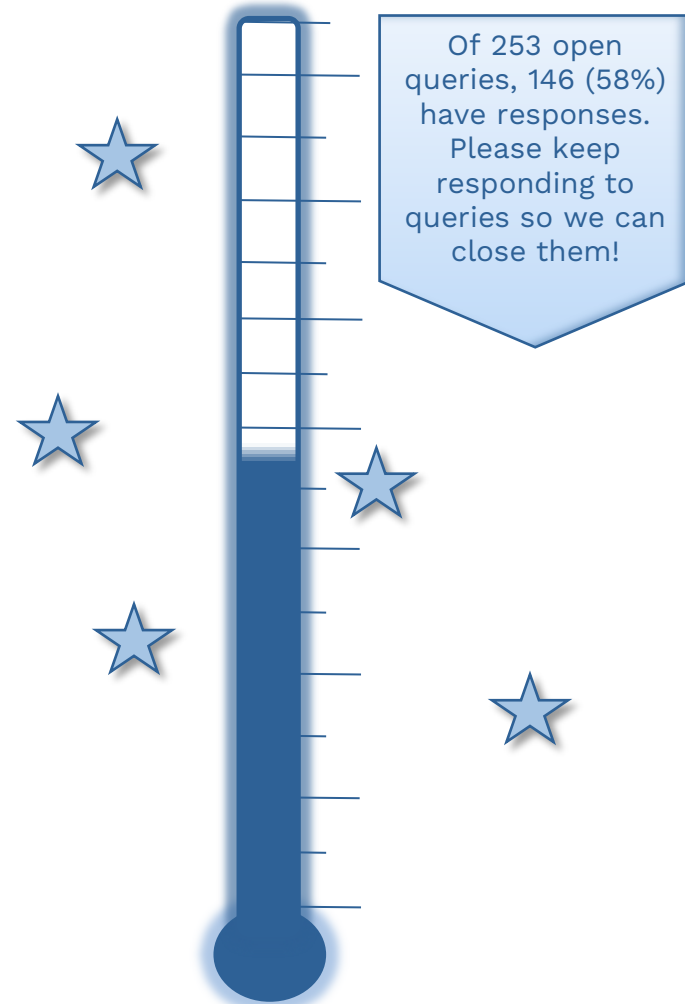

- ❖ Ongoing nonserious AEs and SAE will be followed after the last scheduled trial visit until the event resolves (for SAE, no longer meets any of the seriousness criteria), the condition stabilizes, or the event is explained/judged to be no longer clinically significant.

Database Lock Timelines

- ❖ Last participant last visit (LPLV) 10Aug2026
- ❖ All study data should be entered. If you have outstanding data entry, please communicate with your CRA.
- ❖ All queries must be resolved by your site's assigned batch freeze date.
- ❖ We will be freezing our database in batches over the next several weeks. All queries must be resolved by the batch date. PI sign-off can occur after freezing. Your CRA can inform you in which batch your participants are included.
- ❖ Batch 1 Freezing: 21Jul26 Complete
- ❖ Batch 2 Freezing: 14Aug26
- ❖ Batch 3 Freezing: 24Aug26
- ❖ Batch 4 Freezing: 31Aug26
 - *Sites in batch 4 must have PI sign off completed in 1 day, please let your CRA know if your PI plans on being out of the office anytime in the next few weeks*

- ❖ **Final Database lock: 02Sep26**

DATA CLEANING

- ❖ Investigator Meeting recordings/slides with interactive Trivia questions
- ❖ Safety Reporting Forms and Medical Monitor Maps
- ❖ Latest Protocol Updates

DATABASE LOCK BINGO

B	I	N	G	O
 Closed a query	 Entered visit data within 5 days	 Answered a sponsor email	 Updated source documentation	 Completed a participant visit
 Found a missing document	 Performed AE follow-up	 Reviewed CCG guidance	 Helped a teammate	 Resolved an open issue
 Responded to a monitor request	 Reviewed SDR findings	 FREE SPACE Database Lock Champion!	 Submitted study documentation	 Cleared a query backlog
 Tracked down a data discrepancy	 Logged into the study portal	 Completed study paperwork	 Worked through a long to-do list	 Double-checked data quality
 Closed out an action item	 Helped move the study forward	 Met a deadline	 Supported a participant	 Made progress toward database lock

★ BONUS CHALLENGE! ★

How many squares can your site check?

- ★ 1 Row = Data Quality Hero
- ★ 2 Rows = Query Closure Champion
- ★ 3 Rows = Database Lock Leader
- ★ Full Card = Seabreeze Super Site!

MORE THAN
26,000
QUERIES HAVE BEEN ISSUED

ONLY 0.9% TO GO. WE'RE ALMOST THERE!

99.1%
QUERIES
CLOSED!

More than 26,000 queries have been issued during the study, and 99.1% have already been closed. Your responsiveness, attention to detail, and commitment to data quality have brought us remarkably close to the finish line. Thank you for helping move the Seabreeze STAT Asthma (CBP-201-206) study toward final database lock!
